Subject: RE: Restriction 10803582?

Claims 1-7 can be restricted to 29/890.03. We will accept these claims and redocket the case if they are restricted out and timely transferred to us.

Thanks,
Marc Jimenez

Subject: Restriction 10803582?

Mr. Arbes,

Could you please take a look at application 10803582 and advise on a possible method claim restriction of claims 1-7? It seems to me to be "on the border" since most of it appears that it would be inherently necessitated by any similar structure I find, however the applicant uses some specific verbiage such as "press-connected to said metal plate" (claims 1 and 2) which leads me to believe that they may belong to class 29.

Thanks!
